

WINDOWS DRIVER ENFORCEMENT

Revision: September 2018

WHAT THIS GUIDE IS ABOUT

This guide is designed to help outline the procedure to overcome an issue when installing the Universal Control Panel (UCP) and Windows 10 prevents the completion via a driver signature enforcement issue.

Windows 10 enforces driver signatures by default and this can be disabled to install drivers that are not digitally signed. Use the steps outline in this guide to disable driver signature enforcement to complete the installation process, once complete the computer will be returned to default settings for driver enforcement.

Please uninstall all instance of the UCP prior to commencing the steps outlined in this guide by opening the Control Panel and clicking Uninstall a Program.

If you require further help with the information contained in this guide, please contact the LST Group support department at support@lstgroup.com.au

INSTALLATION PROCESS

- 1- Click the **Start Menu** and select **Settings**.
- 2- Click **Update and Security**.
- 3- Click on **Recovery**.
- 4- Click **Restart now** under Advanced Startup.
- 5- Allow the computer to restart.
